

## GIS/Mapping Specialist

CartoVista is an innovative, fast-paced, entrepreneurial environment packed with opportunities for those seeking new challenges. Our mission is to enable the enterprise to better visualize and understand geographic data to make more informed and insightful business decisions.

We require a self-motivated GIS specialist to join our team to support new customers and expand the reach of our solution. This position involves working with the CartoVista software to create ground-breaking web mapping projects for our customers around the world. CartoVista offers you the opportunity to join our bilingual team in Ottawa-Gatineau, working with the latest GIS technologies and participating in the development of award-winning web maps. We are looking for an individual with a broad set of skills ranging from data management to high-quality cartographic production. If you have a solid background in GIS software (ESRI ArcGIS, QGIS, MapInfo, FME, etc.), as well as excellent interpersonal skills, this position is for you.
